SUBJECT : The Green Revolution Rice Project

Today, 19 July 1973, the First Lady, Mrs. Imelda R. Marcos, launched the Green Revolution Rice Project on "Palayan ng Bayan". The objective is to accelerate rice and corn production by opening and putting into production some 100,000 additional hectares of undeveloped land in the provinces. This is intended to be apart from the "Masagana 99" Program and will be principally projects of the Provincial Governors, particularly, on public lands. These projects are intended to be self liquidating and financed from loans from the Office of the First Lady at ₱1,000 per hectare, out of which up to ₱200 per hectare may be allotted to irrigation development.

You are, therefore, directed to advise and render technical assistance to the Provincial Governors in connection with this project.

Strict compliance hereon is enjoined.
