S U B J E C T : Inventory of All Reservoir/Dam

In connection with the instructions of the President to mount an updated and systematic inventory of all reservoir/dam sites throughout the Philippines that may be useful for irrigation, hydro-power, flood control, and domestic water supply, regional directors are instructed to initiate immediately their own field investigations and to report initial findings to the Administrator within two months from this date. Priority should be given to watersheds commanding present irrigation systems especially those with low dry season irrigation coverage.
