SUBJECT : Limitation on the Use of Concrete Lined Canals

It has been observed that construction of concrete lined canals are made without proper regard to the types of soil thru which the canals pass through and to the financial and economic implications of such construction.

Henceforth, the application of concrete lining on canals shall be made only when the soil parameters warrant its use and after prior written approval by the Design and Specifications Department has been secured.

This Memorandum Circular takes effect immediately and supersedes previous circulars and issuances inconsistent with it.

Please be guided accordingly.
