SUBJECT : **YELLOW-RED OVERSEAS ORGANIZATION**

The Department of Agriculture issued a memorandum dated 26 April 2004 informing all its offices, bureaus and attached agencies that the Task Force for the Security of Critical Infrastructure (TFSCI) has reported the presence of the Yellow-Red Overseas Organization (YROO), a newly formed terrorist group based in South Korea. According to TFSCI, the YROO is planning to conduct terrorist acts in eight countries supporting the US-led war against terror from April 20-30, 2004. Said countries are Japan, South Korea, Thailand, Singapore, Australia, Kuwait, Pakistan and Philippines.

In view hereof, all government officials and employees are advised to exercise extra vigilance on YROO and other international and local terrorists to preclude these groups from effecting terror acts to our critical infrastructure.

For strict compliance.
