SUBJECT : REDUCTION IN THE IRRIGATION SERVICE FEE RATES  
IN PUMP IRRIGATION SYSTEMS

In view of the numerous requests of farmers-beneficiaries of Pump Irrigation Systems to bring down the Irrigation Service Fee (ISF) rates to the level of those in gravity systems in order for them to have the capacity to pay, Board Resolution No. 7459-07 was passed on 9 July 2007, approving the hereby attached rates in various Pump Irrigation Systems. The reduction in ISF rates in the concerned Pump Irrigation Systems would improve the farmers-beneficiaries' capacity to pay the ISF and to encourage them to continue availing the benefits of irrigation thru pump systems, particularly in areas devoted to the production of rice, corn and other food grains, and vegetables.

The concerned staff in field offices where the pump systems are located are hereby instructed to disseminate the new ISF rates in their respective areas of jurisdiction.

Be informed that ISF rates in other Pump Systems which are national in category, and are not included in the attached list would be subject of further study and a policy for these, formulated.

For immediate implementation.
